

Results-based Partnerships
Project plan

RBP Participating Principal:

Please provide us with the information listed below.

- School name
- Principal name
- RBP Participating Business Partner
- A brief description of the specific academic needs that will be addressed in this project.
- A description of the type and source of initial student performance data that was used to identify them for participation in this project. *Example: WESTEST performance levels – Scale Scores*
- A listing of students that will be participating in this project - *Please do not use names but do generate and use a number for the student that will not identify them*
- Individual empirical data that was used to choose students for participation in this project - *This will provide the “pre” data and will be collected again at the end of the project as “post” data. It is important that the same instrument is used to collect both pre and post project data)*

Sample pre-project data report:

WESTEST DATA

Student	Content Area	Scale Score
29	Reading / LA	505
102	Reading / LA	542
175	Math	600
